

Mustang Cleaning Supplies gets a facelift.

Mustang Cleaning Supplies gets a long-awaited facelift, starting with a whole new look to their online presence, and giving more back to the customer both traditional and online.

Managing Director Mr. Paul Downes has given the company a major facelift, firstly by upgrading their payment gateway for online and telephone orders to use **Optimal Payments Ltd** which is a wholly-owned subsidiary of Optimal Group Inc. (Nasdaq:OPMR), and a leader in the international payment processing industry.

Looking to bring down costs for the customer, Mr. Downes has just taken on a new courier company **Fastway Couriers**, who provide local and national courier services at consistently better prices and the addition of a simpler shopping experience throughout the site.

After extensive work by Mr. Downes, Mustang Cleaning Supplies are proud to be one of the select few suppliers for **Ecover** in the UK, who are the World's leading manufacturer of ecological cleaning products with over 25 years of experience in this field. All Ecover products originate from the World's first ecological factory and is now both the UK's and the World's biggest selling ecological cleaning brand. Ecover is ISO14001 accredited and distributes to nearly 30 countries worldwide.

Mr. Downes hinted at some big changes for the future he said "I don't want to say too much at this stage but we will be offering a unique range of services not yet seen by any other suppliers. We hope to commence a beta rollout around the second quarter of this year and looking for a full release before the third quarter." Needless to say this will make Mustang Cleaning Supplies a major player within this sector.
